Why Choose ATS for Extended Teams & Staff Augmentation?

Essential Talent Acquisition

Address the critical need for the right personnel in your team, overcoming time constraints and local talent limitations.

Outsource with Assurance

Whether supplementing an existing in-house team or requiring specialized skills, ATS provides top-tier, managed remote resources, offering a cost-effective alternative to traditional hiring.

Key Differentiators of Our Service

- **Boost Team Productivity:** Enhance overall team efficiency, helping you achieve your project goals more rapidly.

- **Reduce Training Overheads:** Minimize the training needs impacting your bottom line.

- **Qualified and Vetted Professionals:** Access industry-trained, certified, and thoroughly vetted resources.

- **Overcome Geographic Constraints:** Remove the limitations posed by proximity, enabling access to global talent.

- **Flexible Resource Management:** Choose between managed or unmanaged resource models based on your project needs.

- **Distributed Responsibility and Accountability:** Benefit from clear responsibility distribution and comprehensive reporting.

- **Committed Workforce:** All resources are full-time employees, ensuring dedication and consistency.

Our Comprehensive Staff Augmentation Offerings:

- Specialized Developers (e.g., .NET, PHP, Python, Java, AI & ML)

- MuleSoft Architects, SharePoint Software Engineers

- CRM Software Engineers, Systems Engineers

- Mobile App Developers, Project Managers

- Software and Solutions Architects

- Business Analysts, Database Administrators

- Graphic and Web Designers, QA Testing Engineers

- Technical Writers and more
